## RAIN CHANCES THROUGH THIS EVENING!

### *This Afternoon*

- BEST chances across West & Central Panhandles
- Warm & Breezy

### *This Evening*

- BEST chances across West & Central Panhandles
- Lows in the 60s

### BEST Chance Area

National Weather Service - Amarillo

Issued: 6/4/2015 2:22 AM

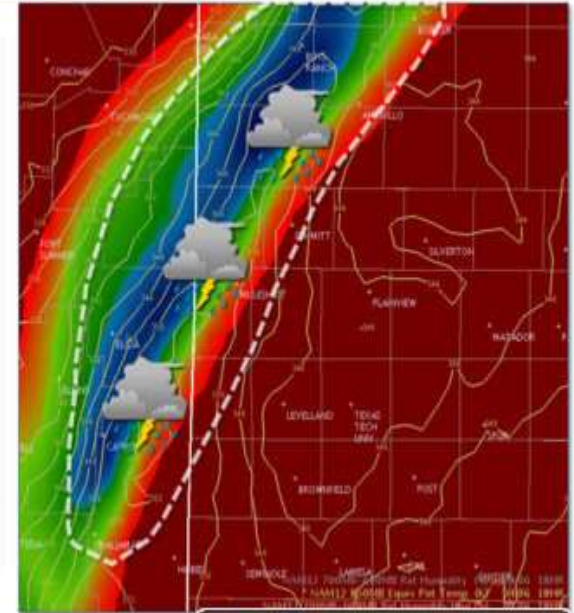

An upper trough will approach the Texas and Oklahoma panhandles from the west this afternoon and this evening while a dryline sets up across eastern New Mexico today and tonight. Isolated thunderstorms are expected to develop by this afternoon mainly across the western and central panhandles which will continue into this evening. Some storms could become strong to severe with hail up to half dollar size and wind gusts up to 60 mph.

## *Thursday: Thunderstorms return to the forecast*

A few thunderstorms are expected to develop in the dashed area this afternoon.

The storms may be strong or even briefly severe with large hail and damaging wind gusts.

The storms will move slowly eastward and likely die off late this evening before reaching the central South Plains.

NWSLubbock

505 AM CDT  
Thu Jun 4 2015  
National Weather Service  
Lubbock, TX

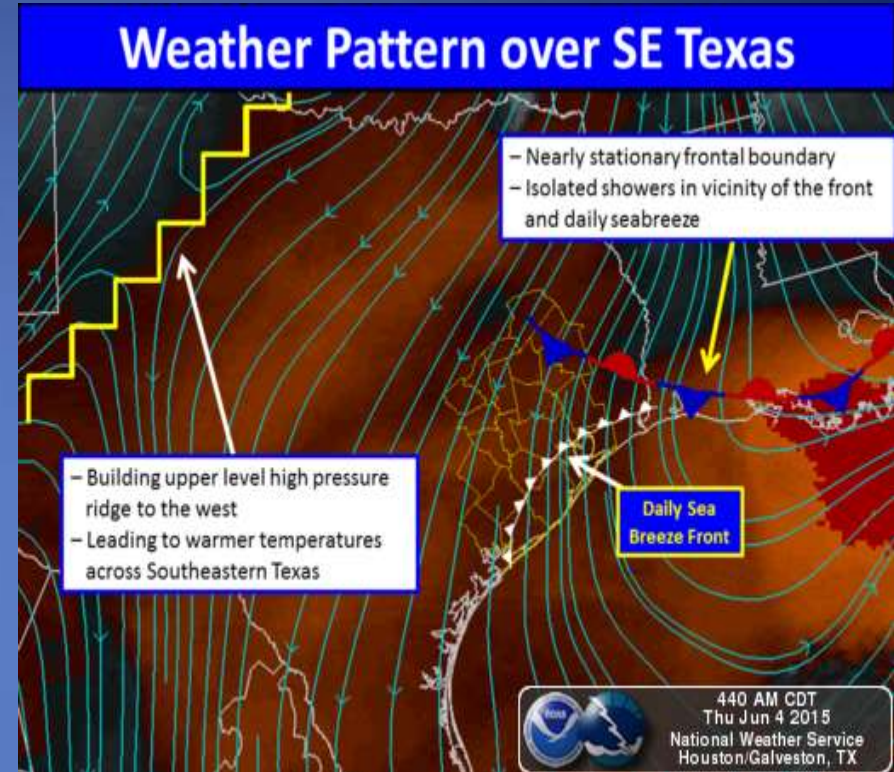

It will be warm again today with highs mainly be in the upper 80s to middle 90s. Southerly winds will be breezy in the afternoon and evening. There is a chance of afternoon and evening thunderstorms across the western South Plains.

# Hazardous Weather

Highs in the 90s most areas with a few 100s along the Rio Grande. Isolated showers and storms are expected from the Davis Mountains into southeastern New Mexico.

Isolated afternoon and evening showers and thunderstorms are possible along the seabreeze and a dissipating stationary front today. Otherwise, an upper level ridge of high pressure building over the state will lead to mainly partly cloudy skies and warmer daytime temperatures through the weekend. Afternoon high temperatures will likely reach into the lower 90s over the inland areas and the mid and upper 80s at the coast.
